

WELLSPRING LITTER BIN

SKU: 302.0293

Description

The **Wellspring Litter Bin** is a refined teak-and-steel outdoor waste receptacle designed by **Robert Chipman** as part of the Wellspring collection by Landscape Forms. It features a **wide side opening**, a **hinged powder-coated top lid** and a **20-gallon capacity liner**, creating an elegant yet highly functional litter solution for premium public-realm environments. A **black polyethylene liner** is supplied as standard, and the warm natural character of teak ensures the bin integrates seamlessly into human-centred outdoor spaces.
