

INSPIRA PLANTER

SKU: 304.0357

Description

The Inspira range is a modular planting and seating system that transforms streetscapes, plazas, courtyards, rooftops, and urban developments with its flexible, specification-ready design. Comprising straight, angled, curved and circular wall components, Inspira enables geometrically or organically shaped raised planters that are quick to install. Optional integrated seating, lighting, waste, cycle shelters and HVM-rated *Inspira Protect* modules further enhance public realm utility—all in a wide selection of materials and finishes. Ideal for architects, specifiers, contractors, and local authorities seeking low-maintenance, high-impact, and sustainable green infrastructure.
