

PALETO SHELTER

SKU: 107.1433

Description

The Paleto Shelter System is a highly flexible, modular shelter solution designed to accommodate bicycles, e-bikes, scooters, motorcycles and a wide range of covered outdoor uses. Supplied by BSFG as a configurable shelter family, Paleto can be specified as open, enclosed or secure storage and scaled to suit anything from compact sites to large mobility hubs. Its robust steel frame, modular construction and extensive customisation options make it ideal for future-proof cycling and mobility infrastructure. Paleto offers a cost-effective and adaptable solution for public realm, commercial and transport environments.
