

FULLERTON BIKE LOCKER

SKU: 110.1434

Description

The Fullerton Bicycle Locker is a robust, modular solution for secure individual bicycle storage, designed for high-value cycles and space-efficient installations. Supplied by BSFG as a single system with multiple locking options, Fullerton can be specified with key access, PIN-code entry or electromechanical access control without changing the core structure. Available in single- or double-tier configurations, it maximises parking capacity while maintaining ease of use. The system is engineered for long-term durability, adaptability and future expansion.
