

NOALE TABLE

SKU: 301.1256

Description

The Noale Table is a robust, architect-grade outdoor table designed with a heavy-duty steel structure and a choice of steel-rod top or five-slat hardwood/thermo-treated pine surface for long-life public-realm performance. Engineered for structural integrity, corrosion protection and year-round durability, every component is galvanised and polyester-powder coated with stainless steel fixings. Designed for seamless integration in parks, campuses, waterfronts and civic spaces, the table is pre-drilled for secure ground fixing to ensure stability in high-traffic environments. The result is a beautifully detailed, low-maintenance, project-ready table ideal for landscape architects, local authorities and contractors seeking dependable outdoor furniture.
