

Description

Circus Forma is a striking multi-level seating island that transforms public spaces into vibrant destinations for gathering, social interaction and informal recreation. Designed by Thor Høy, the sculptural arrangement of five interconnected circular modules creates an amphitheatre-inspired environment that encourages people to sit, meet, observe and engage with their surroundings. Combining integrated planting opportunities, durable recycled materials and contemporary Scandinavian design, Circus Forma delivers exceptional placemaking value for parks, civic spaces, educational campuses and commercial developments.
