

ADD PLUS TF BENCH

SKU: 301.1274

Description

ADD PLUS TF is a modular, T-shaped urban bench designed to create dynamic, multi-directional seating layouts in busy public spaces. Its flexible form—part of the ADD PLUS range by byMUNCH—features a single integrated backrest and can be combined with other modules to create unique configurations for learning environments, parks, campuses and civic squares. Built from galvanised steel with oil-treated mahogany slats and stainless-steel end panels, ADD PLUS TF delivers durability, comfort and contemporary Scandinavian styling. The result is a highly versatile seating solution supplied by BSFG, and manufactured by our sister company HITSA, known for robust Danish craft and modular design.
