

BIKE LANE SEPARATOR

SKU: 502.0712

Description

The Large Bike Track Separator "SKATE" with fixed reflector creates clear, confident delineation between cycle lanes and live traffic, improving safety and sightlines day and night. Manufactured from 100% recycled plastic, it combines durability with circularity and a low-maintenance finish, with reflective areas permanently painted for long-term visibility. Available in large format with outside length 820 mm and width 200 mm, with model-dependent heights of 117 mm or 127 mm to suit scheme requirements. Technical files and CAD are available to support swift specification and delivery.

Standard Dimensions

Length x Width x Height (mm)

820 x 200 x 127

755 x 185 x 90

820 x 200 x 130

820 x 200 x 117
