

CUBIK F PLANTER

SKU: 304.1227

Description

The Cubik Planter is a sleek, modular steel planter designed to integrate seamlessly into contemporary urban landscapes. Built from folded steel and finished with galvanised and powder-coated protection, it offers exceptional durability and weather resistance. Part of the Cubik modular system, it pairs perfectly with benches and tables for cohesive public realm design. Ideal for architects and specifiers seeking robust, low-maintenance planters with modern aesthetics.
