

# FRANK - JASPER - NORMAN

SKU: 301.1095

## Description

Engineered for the public realm, the Frank–Jasper–Norman family by Metalco delivers sculptural seating in HPC with outstanding durability, low maintenance and layout flexibility. Frank uses a hexagonal module; Jasper uses a square module; Norman uses a circular module. All are partially hollowed internally to reduce mass while preserving structural performance, and all can be specified as stand-alone elements or combined into gridded, clustered or free-form arrangements to suit desire lines and site geometry. Each model is offered in two versions—backless or with an HPC backrest—enabling inclusive comfort strategies without compromising the minimalist aesthetic. Typical modules fix freestanding or by anchoring (project dependent), and selected models offer optional LED integration for night-time legibility. Sizes (nominal): Frank 1350 × 1350 mm; Jasper 1200 × 1200 mm; Norman Ø1200 mm. Seat height is typically 470 mm, with overall height ~845 mm on backrest variants.

### Standard Dimensions

#### Length x Width x Height (mm)

1350 x 1350 x 845

1200 x 1200 x 845

#### Diameter (mm)

1200

SKU: 301.1095

This design language allows specifiers to mix geometries within one scheme while maintaining a coherent material palette and finish.

Model highlights (for quick specification):

- Frank (hexagonal): 1350 × 1350 mm; backless ~715–751 kg; with backrest up to ~838 kg; optional LED; freestanding/anchored to suit site. Ideal for tessellated clusters and island nodes.
- Jasper (square): 1200 × 1200 mm; backless ~726 kg; with backrest ~813 kg; optional LED; freestanding. Works well in grid patterns or alongside rectilinear hardscape.
- Norman (circular): Ø1200 mm; backless ~686 kg; with backrest ~773 kg; optional LED; freestanding. Perfect for softening orthogonal layouts and creating informal meeting points.

<b>Backrest</b>	Yes, No
