Description

The BSFG Steel Mini Tennis Net Collection offers a durable, specification-ready solution for schools, parks and community sports environments seeking long-lasting, low-maintenance outdoor tennis provision. Designed to eliminate the recurring issues of damaged or stolen nets, this permanent steel system provides reliable performance and reduces ongoing operational effort for facilities teams and contractors. Engineered for year-round exposure, the system supports a wide age range and helps create flexible play zones that encourage ball-skill development, coordination, movement and inclusive participation. The collection is ideal for specifiers requiring robust, cost-effective alternatives to traditional textile nets—unlocking greater value, greater durability and enhanced play engagement for children and young people.
