

MILANO LITTER BIN

SKU: 302.1226

Description

The Milano litter bin by City Design is a contemporary multi-stream recycling solution designed for controlled waste separation in public spaces and supplied in the UK through BSFG. Formed from a welded steel sheet structure with a distinctive three-aperture aluminium lid, Milano supports clear user behaviour and organised recycling. Three integrated 60-litre internal liners provide dedicated capacity for separated waste streams. Ideal for indoor public realm environments where visual clarity and structured waste management are required.
