

DOOR BARRIERS

SKU: 503.1264

TREE PROTECTION & LANDSCAPING SPECIFICATION DATA

Description

Our Door Barrier range provides essential protection for entrances and doorways in high-traffic environments. Available in stainless steel or galvanised steel with powder-coated finish, and a rubber bung, these barriers combine strength, durability, and a clean aesthetic. Designed to prevent impact damage from trolleys and vehicles, they offer flexible installation options and specification-ready technical support. For an automatic swing door to comply with the guidelines set out in EN16005 every door must have barrier rails protecting the side approach.

Standard Dimensions

Length x Height (mm)

450 x 1300

Diameter (mm)

42
