

DIAMOND BOLLARD

SKU: 501.0297

Description

The Diamond Recycled Plastic Bollard by BSFG combines sustainability with strength, crafted from 100% recycled polymer for a durable, eco-conscious alternative to timber or metal. Its 1,200 mm height and 150 mm square profile deliver a clean, modern aesthetic suited to parks, pathways and urban schemes. Resistant to rot, splintering and corrosion, this bollard offers long life with minimal maintenance, available in black or brown finishes with optional reflective banding for enhanced visibility.

Standard Dimensions

Length x Width x Height (mm)

140 x 140 x 1500
