

Projects/Installation Manager; Playgrounds & Outdoor Sports

Main Location – Burscough, Lancashire

Hours: Monday to Friday 8am till 4.30pm

AMV Playgrounds have been trading for 35 years. As part of the Bailey Street Furniture Group, they are one of the UK'S leading outdoor sports & playground equipment manufacturers, working directly with schools and local authorities across the UK.

With record sales revenue currently being achieved, this is an exciting time to join the business. As part of this continued and sustainable growth, an opportunity has now opened up for an ambitious and dedicated project manager to join the team and contribute to our ongoing success.

Based at our Burscough office, the successful candidate will have exceptional organisation and communication skills, being able to demonstrate clear levels of directive and co-ordinate with both our production management and site installation teams.

Excellent levels of organisational skills, an ability to converse at all levels and an ability to work both independently and as part of a team are all key elements of this exciting role.

Reporting directly to the Managing Director, the successful candidate will be solely responsible for organising all aspects of site installation activities as well as working closely alongside the factory manager to ensure production deadlines are met. Customer liaison will also feature prominently in this varied and dynamic role.

Candidates will need to demonstrate a proven track record of success working in a similar role within the manufacturing and construction sector, with a detailed knowledge of ground works essential and preferably a strong working knowledge of steel erection/fabrication also.

Key tasks include but are not limited to the following:

- Project Management of both production and installation schedules.
- Responsibility of all on site activities.
- Review workload and manpower to ensure that targets are being achieved.
- Chairing of weekly project progress meetings
- Management of the technical drawing office to ensure technical site surveys are arranged and subsequent engineering drawings are completed within agreed timeframes
- Work closely with the factory manager ensuring that all customer delivery targets are achieved.
- Improve operational management systems, processes, and best practices.
- Monitor production/installation standards and quality control on all completed projects
- Responsibility for maintaining project profitability and high levels customer satisfaction.

Personal Qualities & Experience:

- Proven work experience as a Project Manager in a similar role.
- Excellent communication skills at all levels.
- Demonstrate leadership
- Outstanding organisational skills.
- Calm under pressure
- Ability to acknowledge and work to deadlines.
- Knowledge of steel fabrication (advantageous).
- Able to interpret technical drawings
- Strong problem-solving skills.
