

Modular single seat made from a 3 mm thick folded steel sheet base mechanically fixed to a seating surface in 3 mm thick steel sheet cut and decorated with square. Each base is prepared for lateral attachment with the other elements of the CUBIK collection. All metal parts are galvanized and coated with thermosetting polyester powder. All fixings are in AISI304 stainless steel. Prepared with a  $\varnothing$  12mm hole for ground fixing with a mechanical mechanical dowel (not included) for outdoor installation or for free standing for indoor installation.
