PLAY . LEARN . GROW

“ Play is our brain’s favourite way of learning ~ Diane Ackerman ”

The Importance of Outdoor Spaces in Schools

At **Bailey Street Furniture Group**, we understand that outdoor spaces play a vital role in supporting **children's wellbeing, development, and active lifestyles**. For nearly **40 years**, we have worked closely with schools to create **high-quality, durable, and engaging outdoor environments** that **encourage play, physical activity, and social interaction**.

We specialise in active play and outdoor sports equipment designed to enhance school environments.

With our manufacturing facility in Burscough, we proudly produce much of our product range, ensuring **exceptional quality and durability**. Our reputation for **reliability and value** has made us a **trusted partner for schools**, with much of our work coming from recommendations and returning customers.

This brochure highlights just a small selection of our projects. To explore our full range of products, visit; www.bsfg.co.uk.

If our team can assist you in creating inspiring outdoor spaces, please don't hesitate to get in touch—we're always here to help.

SCOOTER & CYCLE STORAGE

Support your school travel plan and reduce your carbon footprint with our versatile range of smart storage solutions designed specifically for primary schools – kids love them!

SCOOTERPOD

SCOOTER PODS a unique storage solutions just for children's scooters!

Each Scooterpod comes as 2 halves. The round segments hold 12 scooters when joined together, and can be added to a linear Scooterpod to create a Scooterpod Island to hold 24 scooters, or even more if extra linear segments are added! Scooterpods are delivered to your school with all the fixings necessary to put them together and fix them to a hardstanding surface.*

SCOOTERPOD LINEAR

SCOOTERPOD ISLAND

COLOURS AVAILABLE

**Freestanding bases are available for Minipods and Scooterpods if you do not want to fix them to a hard surface.*

MINI PODS

Minipods are fun, **colourful and compact** storage for children's bikes and scooters, holding **8 of each per pod**.

Designed to fit **12"-26" wheels**, they specifically cater for children's bikes up to the age of 11. Available in a range of different colours with up to 4 colours per Minipod, they are ideal for brightening up playgrounds and encouraging **active travel to schools!** **Minipods & Scooterpods** have locking points so children can learn how to lock their bikes & scooters responsibly and **keep them safe.**

GOAL UNITS

Often imitated but never equalled, our **high-quality** playground goals are widely recognised as the market leading product supplied to UK schools. With an unrivalled **25-year warranty**, and a smart design that supports up to 6 different sports in one space saving solution, our goals are the perfect answer to investing your **schools PE and Sports Premium fund** wisely.

MUGAs

Multi-Use Games Areas allow schools to provide high quality curriculum PE as well as encouraging pupils to stay active throughout their school day, resulting in **increased levels of wellbeing** and improved concentration in the classroom. A **dedicated zone for ball sports** can also mean fewer playground accidents or other behaviour related incidents.

BSFG can custom design the perfect MUGA for your school grounds, leaving a **lasting sporting legacy** that will serve your school for many years to come.

STEEL TENNIS NETS

Vandal resistant and virtually maintenance free, our colourful tennis nets are also a great way to create a more structured, multi-purpose playground. Add cricket wickets for even greater play value!

TABLE TENNIS TABLES

It's all about how they're engineered... Looking for a table tennis table that isn't going to need replacing in a couple of years? Our steel ping pong tables were developed in conjunction with the **English Table Tennis Association (ETTA)** and are actually used in public parks.

BASKETBALL & NETBALL

Designed for **durability and performance**, these setups provide a platform for students to **excel physically, learn teamwork, and develop a lifelong love for sports.**

TRIM TRAILS

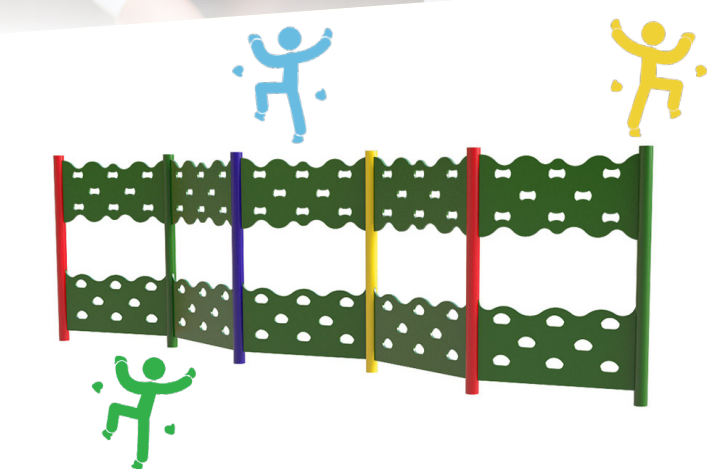

Our colourful trim trails are manufactured in **heavy duty, vandal resistant steel** which doesn't split, distort or start to rot over time, unlike timber equipment

TRAVERSE WALLS

Traversing aids physical co-ordination, helping to develop grip and upper body strength. By offering different climbing routes, children get to explore and manage their own level of risk, choosing greater degrees of challenge as they increase in confidence and ability.

Case Study: The Halifax Academy

BSFG provide a full suite of playground sports equipment and a new sheltered space to The Halifax Academy, an all-through 4-16 school located in Halifax, West Yorkshire, England.

The Setting

Having diverse age groups sharing the playground space it was decided to section off an area specifically for early years. As well as dividing the large space for ball games to help with organisation among the classes.

The Solution

BSFG worked with the school to divide the external spaces into separate areas with a covered space for early years, a new football/basketball court and a tennis net.

Items Chosen...

- Early Years Enclosed Canopy
- Multi-Sport Goal units
- Steel Tennis Nets
- Playground Markings

Outcome

The steel goal structures help to create seemingly enclosed court space for ball games to be played safely. While behind sit the steel tennis nets that further divide the space and allow for the option of tennis or segregated break time play space. The canopy and fence surrounding the early years' play area along with the vibrant and fun playground markings have created a new space for the younger pupils to enjoy and also act as an area to extend the classroom outside.

The result is an easily managed playground space that is adaptable to all ages and allows for multiple age groups to have break times at the same time.

TESTIMONIALS

“ We have worked with BSFG before - but more so it was the whole business approach, the friendliness of the business, ease of communication, the price was right, they listened to exactly what we needed rather than selling a product that was produced and built elsewhere.

~ Mrs Sue Miller - School Business Manager
Merton Bank Primary School

“ The children absolutely love it. They have really been inspired to try a variety of different activities, they are quite creative in the way that they use the equipment. Because it is spread out we have been able to have more children to play safely under the current circumstances. It's absolutely brilliant equipment!

~ Mrs Amanda Dodd – Head Teacher
Culcheth Community Primary School

“ We chose BSFG because we prefer their metal equipment for our school. It is much brighter and longer lasting!

~ Julie Ford - Head Teacher
Chuter Ede Primary School
