

Modular planter made from a 3 mm thick folded steel sheet base mechanically fixed to a 2 mm thick pressed steel sheet truncated conical body (18 lt) with diameter greater than 315 mm, with drainage hole equipped with removable plastic plug.

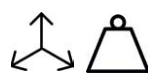

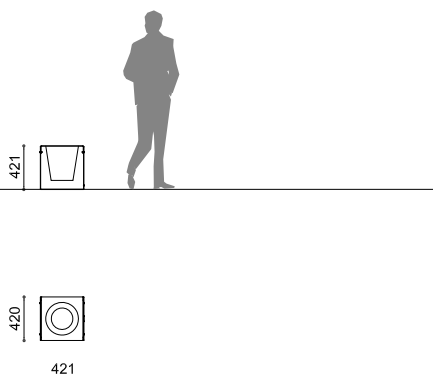

Each base is prepared for lateral attachment with the other elements of the CUBIK collection.

All metal parts are galvanized and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

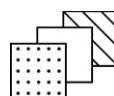

Predisposed with \varnothing 12 mm hole for ground fixing with mechanical mechanical dowel (not included) for outdoor installation or in simple support for indoor installation.
